Flambeau®

Distinctive Packaging For Quality Brands And Products ™

Buyer's Guide

Flambeau®
Distinctive Packaging For Quality Brands And Products ™

Single Source Solutions ... In Plastic

Flambeau® Inc. is a worldwide industry leader in thermoplastic manufacturing, specializing in both injection and blow molding. Our unique competitive advantage is the ability to offer the largest array of proprietary stock plastic packaging and storage products ... along with countless customization options.

Consider Flambeau Packaging as Your "Art to Part" Source!

Our full range of services include:
- Part design
- Mold design and fabrication
- Manufacturing and assembly
- Various product fulfillment programs
- Prototyping
- Sampling
- Custom quoting

Flambeau Inc. Profile and History

Flambeau Packaging, a division of Flambeau Inc. has been doing business since 1947. Headquartered in Baraboo, WI, we pride ourselves in being a family owned company. We foster core values such as Family, Integrity, Leadership, Teamwork and Knowledge for the pursuit of Excellence with people who care ... and who are committed to providing you professional service when you need it!

Customer Service: 1 (800) 344-5716

Our professional customer service associates are eager to help answer questions and solve problems! You can contact us toll free for guidance and great customer care.

We encourage you to examine all we have to offer at our website: **flambeaucases.com**

Follow us on Facebook, Twitter and Instagram.

Overview: Flambeau Capabilities

Express Service℠ E
Offers one unit to single carton quantities of in-stock cases to be shipped within 24 business hours. Qualifying products are marked with a E symbol.

Blue Diamond℠ Program F
Offers select in-stock products to be custom decorated with hot stamp in low volume quantities. Qualifying products are marked with a F symbol.

Special Order / Non-Stock Products S
Most products are in-stock and ready to ship, but non-stock products are marked in the catalog as S and are available with reasonable lead-times.

ECO Friendly Products
Flambeau's Packaging Divisions offers 100% recyclable storage cases and boxes. Ensures customer disposal of product lessens their carbon footprint on the environment & provides additional value to items. Can be manufactured and made available in most products with production quantities as low as 1,000 pieces.

Canvas / Soft-Sided Solutions
Now offering canvas bags and cases fully customized to your specifications. Choose your ideal solution in fabric. Minimum quantities apply. S

Your name/company here

Great for protecting and transporting instruments, equipment, tools, small electronic devices, medical equipment, sports products, and much, much more!

Overview: Custom Decorating Capabilities

Hot Stamp Labeling

An economical way to customize with up to three colors. *Injection molded products only*

Engraving

We use lid and base inserts on our stock boxes and cases. This allows you the flexibility to insert a custom engraved company logo and/or design plate on one or both sides. *Injection or blow molded products*

In-Mold Decorating

High quality, multi-color graphic labeling. The result - better product presentation with guaranteed straight, crisp, clear graphics that are impervious to most chemicals. *Injection or blow molded products*

Labels

Adhesive-backed labels available and factory supplied. *Injection or blow molded products*

Custom Interiors

Molded Interior

Choose from custom molded interiors or custom foam interiors for that polished and professional look.

Zerust® and Anti-Tarnish Capabilities

No Rust With Zerust!

Zerust® has proven to be the absolute best way to protect your equipment against rust and corrosion. Molded into many Flambeau® products, this patented polymer emits a harmless vapor, forming a protective layer around metal surfaces. With the Zerust VCI (Volatile Corrosion Inhibitor) molded directly into the plastic, there is no need for messy VCI cardboard chips that lose their potency when they get wet. All Zerust products will maintain their effectiveness for five years of hassle free, long lasting protection. Look for the Zerust symbol next to those products that feature this revolutionary technology. This is just another innovation from Flambeau®... your most trusted source in storage.

Anti-Tarnish by Flambeau®

Provides safe, long–term protective storage for sterling silver items. The patented Anti-Tarnish additive forms a harmless protective layer around silver surfaces preventing tarnishing for up to five years.

Flambeau Zerust helps to increase efficiency, saves money and, most importantly, protects tools and hardware keeping them operational.

Scan to see the Zerust story

With Flambeau® Zerust® Protection

No RUST with Zerust!

STOP RUST

Zerust® is the oldest, most proven effective VCI, (Volatile Corrosion Inhibitor) in the industry!

Flambeau® Zerust® provides a solution to the corrosion problem. It helps to increase efficiency, saves money & most importantly protects tackle, keeping them operational.

Zerust® Molded Directly Into Product: Flambeau stocks select Super Satchels™ and Tuff Tainers® with Anti-Tarnish or Zerust molded within the product. Most products incorporating the Anti-Tarnish or Zerust features are available through our **Special Order Program** and may require certain minimum quantities.

See next page for ordering information for Anti-Tarnish and Zerust Divider Packs. These divider packs provide the same great protection molded in the "divider" for use in Flambeau Super Satchels &Tuff Tainers.

Start Day 1 — Without Zerust® / With Zerust®

After 1 Week — Without Zerust® / With Zerust®

After 1 Month — Without Zerust® / With Zerust®

Zerust® Dividers:

Having Zerust molded directly into the dividers themselves, creates a harmless vapor barrier around your parts inhibiting corrosion for up to five years (see first chart).

Zerust is molded into the dividers
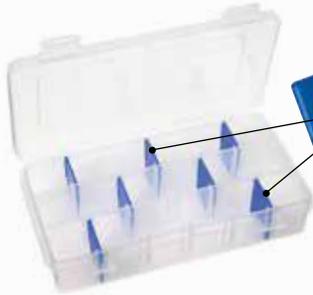

Zerust is a registered trademark of Northern Technologies International Corporation.

M-Series Boxes

Polypropylene

Extra heavy-duty construction makes the polypropylene M-Series boxes tough and durable. These workhorse boxes feature a heavy-duty, heat-sealed hinge and overlapping lid to inhibit dust. Impervious to most household chemicals, solvents, oil and gasoline, these boxes keep items safe and organized.

Compartment Boxes

Tuff Tainer®-Series Boxes

Polypropylene

The Tuff Tainer is made with polypropylene and features a detachable lid and movable dividers that allow you to configure your compartment space to your liking. The majority of these boxes include two positive locking latches and will resist most common chemicals, gasoline & oil.

Compartment Boxes

T-Series Boxes

Polypropylene

T-Series boxes provide the same durable construction as the popular M-Series, but are made with translucent polypropylene. These boxes are perfect for "visualizing" components within the box. The T-Series are impervious to most household chemicals, solvents, and gasoline. Great for storage and protection.

* Adding color to the resins effects the clarity of the finished product

Same durability and toughness as the M-Series boxes, but translucent.

Flambeau®
Distinctive Packaging For Quality Brands And Products ™
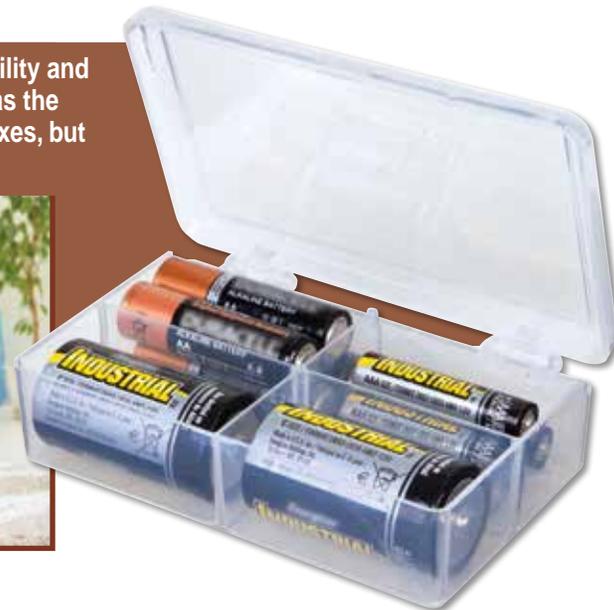

Compartmental Box Chart: By Dimensions

With the industry's largest selection of sizes and material types you can expect to find what you need right on our shelf. Yet, even with over 300 stock choices, sometimes we have a request for a unique size or compartment configuration. If so, please let us know. Most of our products can be altered to accommodate a special material or core (compartment) requirement for your project. Finally, we will accommodate you by building a tool specifically for your project right with our Technologies Tool Group.

To help you find what you need we have added a size reference chart that lists all of Flambeau's compartmented boxes from their smallest to largest dimension.

Flambeau®
Distinctive Packaging For Quality Brands And Products™

flambeaucases.com • Distinctive Packaging For Quality Brands And Products™

MADE IN USA

Cases: Merchant™ Cases

All Merchant™ Cases employ shallow lid with deep base functionality. Our cases include the same great features as our Tradesman line, except with a shallow lid and deeper base design. The Merchant 10 and Merchant 15 case handles are designed to provide excellent balance by off-setting the handle for center grasp between the lid and base. Slide open/shut lockable latches with a bead-line seal fit between base and lid complete this exquisite line.

MADE IN USA

Flambeau®
Distinctive Packaging For Quality Brands And Products™

Cases: Tradesman™ and Merchant™ Case Options

Customization of the Tradesman & Merchant Case:

Customize your Tradesman or Merchant case with options that include engraving, printing, labeling, die-cut foam and the in-mold labeling process which is nearly indestructible and impervious to chemicals.

Custom Options Enhance Interest

Grab attention with attractive designs and colors that outperform your competitor's packaging. Private label any of our boxes to give your company the edge it deserves!

In-Mold Decorating

Achieve high quality, multi-color graphic labeling. The result - better product presentation with guaranteed straight, crisp, clear graphics impervious to most chemicals. *Injection or blow molded products*

Custom Foam

Merchant™ cases offer the best solution when foam is the desired choice for protecting and merchandising your products. The shallow lid design in all Merchant cases minimizes the required use of foam, minimizing cost. The Merchant's deep base is excellent for storing multiple contoured parts.

Even the
7" Merchant Case
can have a custom foam interior.

Color Options

Flambeau offers a selection of color resins. Custom blended colors available upon request.

Cases

Cases: Infinity™ Case

With flair, style and professional presence, the Infinity is designed to give you a high level of protection with a modern look. It features a natural dust seal, double-wall protection in the lid and base, is crush resistant and can withstand a 30 pound impact test. The dual latch system provides easy latching with confidence of security even in the harshest conditions and is available in a variety of sizes and depths (**see chart on page 62**).

Features:

- Integral or Pin-Hinge
- Water and Chemical-Resistant
- Locking Hole
- Crush-Resistant and Stackable
- Dual Latch System

MADE IN USA

Cases: The "P" Series: The Pin-Hinge Case

The "P" Series case is a Flambeau original and has a proven track record in most industries and applications. This is a "pin-hinge" style high-density polyethylene (HDPE) blow molded case. The routed base option is designed to accommodate our standard solid sheet or diced foam and is available in a variety of sizes and depths (see charts on pages 64-65).

Features:

- Heavy-Duty Latches
- Double-Wall Protection
- Impervious to Most Chemicals / Gasoline
- Crush-Resistant and Stackable

Cases: "R" Series Case

The "R" Series case features an integral hinge and latch system. This simple and reliable blow mold case is our most economical case offering. Constructed from high-density polyethylene (HDPE) this case is tough enough for almost any challenge. Available as a double-wall case, or with a routed base to accommodate foam, this case offers maximum protection. A broad range of sizes and depths are available (see charts on pages 66-69).

Features:

- Integral Hinge and Latch
- Crush-Resistant and Stackable
- Option: Double-Wall Protection or Routed Base for Foam Insert

Weld Posts*

Routed Base

Double Wall Base

* Number of weld posts may vary

Drawing Key

A = Outside Length	**B** = Outside Width	**C** = Overall Outside Depth
D = Inside Length	**E** = Interior Width	**F** = Overall Inside Depth
G = Inside Lid Depth	**H** = Inside Base Depth	**I** = Routed Depth

"R" Series Integral Hinge

Double-Wall Protection or Routed Base to Accommodate Foam

"R" Series Integral Latch

* Please note: The "R" Series is production-run only, no stock. See ordering selection and information on pages (66-69)

Cases: Black Ribbon™

Flambeau offers a product line of water resistant cases available in six sizes! These extremely durable cases feature a metal front cam locking mechanical latch system & external rubber bumpers for impact absorption, skid resistance, and greater durability. Made of tough, impact-resistant ABS plastic, these cases are available with or without foam, as well as die-cut foam should you require more protection for your valuables. Black Ribbon cases are excellent for outdoor use in demanding environments and are ideal for storing and protecting cell phones, electronic devices, jewelry, small tools, components and more!

Cases: Secure-Lock™ Case

Secure-Lock™ is a heavy-duty plastic carrying case with patented locking features designed to safely store and help secure personal valuables. Two of the three configurations feature a "cam-actuated" locking mechanism which locks the case down—while the contents inside remain locked.

Features:

• Steel hinge pin construction

• Tamper resistant hinge segments

• Patented "Lockdown" features (models 6615LB & 6620LB)

• Includes 2 keys

Optional Fabric Clip Dividers Available

*Dividers come in a pack of 12 with (8) A's and (4) B's. Only the B's properly fit. Please discard the A's or ask customer service for additional "B" dividers.

Cases: Blow Molded Mailers

Reusable shipping containers from Flambeau will help you save money and give you the durability needed to protect your cargo while in transit. Our blow molded mailers feature double-wall construction and are stackable. Offered with our standard convoluted foam, they are designed to protect even the most sensitive cargo. Lids and bases are separate pieces for loading convenience and feature overlapping positive edges to reduce lid movement and provide a natural dust barrier. Lids and bases must be secured for transit. Made of high-density polyethylene (HDPE) our mailers are impervious to most common chemicals and gasoline.

Features:

- Double-Wall Construction

- Impervious to Most Common Chemicals & Gasoline

- Crush-Resistant and Stackable

Satchel Boxes: Deep & Slim Super Satchels™

Used in many industries as a kit for replacement parts or as a salesperson's sidekick, you won't need to worry about being organized. All Super Satchels are made out of "Acid Free" translucent polypropylene, with a positive contact latch system. The Deep Super Satchels are available in one compartment, six fixed compartments or six fixed compartments with removable dividers. The Slim Super Satchels are available in one compartment or eight fixed compartments and can accommodate up to 40 removable dividers.

Tool Chests

Flambeau Tool Chests are designed to organize, store and protect precision tools, hardware and small parts. They feature a unique front panel design that allows drawer access when the front panel is down. A unique lock prevents accidental spills and allows the lid and drawers to lift as a unit, providing access to the large lower storage area.

Features:

- Resistant to most common chemicals, solvents and oils
- Positive-action latches
- Lockable with brass hinges and latch pins
- Large gray interchangeable drawers with adjustable compartment sizes
- Molded in industrial-grade ABS plastic

Specialty Storage: IDS™ Cabinets - Infinite Divider Storage™ System

A hybrid between mobile & stationary storage, these cabinets have interlocking grooves for easy and secure stacking. The IDS™ system truly gives you mastery over your storage space with (5) IDS translucent cases featuring dividers that can be placed every 1/16" (0.16 cm) throughout the compartments!

Features:
- Infinite Divider System™ (IDS)
- Resistant to oil & common chemicals
- Interlocking stackable cabinets
- Dent-proof
- Fully extendable drawers
- Removable cases

Dividers can be placed at 1/16" (0.16 cm) increments throughout the entire box

T900

Infinite Divider Box (Inside L x W x D):
13-1/8" x 8-7/8" x 1-15/16" (33.34 x 22.54 x 4.92 cm)

999-2

Infinite Divider Box (Inside L x W x D):
13-1/8" x 8-7/8" x 1-15/16" (33.34 x 22.54 x 4.92 cm)

Stackable!

Special interlocking grooves on the cabinets allow them to be stacked on top of each other.

Tactical Series New!

Small Tactical Case

Store more in one! The Small Tactical Case, a.k.a. Double Deep case, features a deep, 6" base for extra storage, 4 pad lock holes, 2 tough snap-fit latches and an integral off-set handle for easier transport. Rugged, stackable and extremely durable, this case is suitable for tool storage, camera equipment, firearms, emergency kits, along with many more functions.

Convolute foam option on lid and base

6791DDC
2 Layers of foam in base:
• Convolute foam
• Diced foam

Medium Tactical Case

The only case in the market that features a distinctive 32" length. The Medium Tactical Case can store and protect any valuables featuring a 5" depth, optional interchangeable divider compartments, 4 tough snap-fit latches and 4 pad lock holes for greater security. Stackable with high impact copolymer polypropylene walls, this rugged case provides durability for the toughest transport.

Linesman Case **New!**

The New Linesman Case is very unique yet versatile. This 43 inch long case is designed for multiple storage applications---long and deep enough to store and protect everything from fishing rods to small rifles, and everything in-between. The ergonomic offset handle helps balance the heaviest loads during transport. The Linesman Case is built tough with steel pin hinge construction, tough ABS latches, four locking points, and conveniently stacks for optimum storage

Features:

- Deep 6" base
- 4 Locking points
- Steel pin hinge construction
- Tough ABS latches
- Ergonomic off-set handle

7450AP

7450BG

8 Pistol Linesman Case

Finally a case large enough to hold your firearm collection! Protected with foam, the pistols sit vertically along the 42 inch case with easy access to the grips. The flexible foam allows for any size pistol to fit nicely in the slot. There's even enough room for an extra magazine next to each pistol

Optional Custom Foam Interiors

The deep 6 inch base leaves enough room for multiple custom options like diced foam or die-cut foam to store and protect your valuables (minimum order quantities apply).

Diced foam interior

Waterproof Satchels **New!**

The new Waterproof Satchels feature a thick durable wall construction with a 360 degree seal for water resistance. Available in two sizes, these satchels feature two locking points for extra security, a rubber over molded handle for easy carry, a recessed lid for extra work space, rust proof steel pin hinge construction, and a durable polycarbonate lid with ribbing design providing extra strength for crush resistance. The open core interior can be custom molded or inserted with die-cut foam to safely store and protect your valuables.

Features:

- Locking points
- Over mold handle
- Snap-shut latches
- Rubber seal
- Ribbing design for extra strength

- Steel pin hinge construction
- Recessed lid for work space
- Durable polycarbonate lid
- Stacking feature

Conductive: Guard Against Expensive Damage

A leader in the industry, Flambeau's reusable conductive product line significantly reduces electrical resistance and provides an extremely high permanent level of conductivity to dissipate static charge build-up, alleviating electrostatic discharge (ESD). Our proprietary blend of carbon loaded HDPE materials are a guarantee that Flambeau conductive products will protect the most sensitive equipment and perform in the harshest environment.

Conductive Cases

Options:
- Clear Conductive Window (Special order styles only)
  - Easy part identification without compromise of Faraday Cage protection
- Grounding Snap
  - Reduces surface charges so the case can be safely opened without damaging contents
- Antistatic or Conductive Foam
  - (Conductive quoted separately)
  - (Antistatic included upon request, foam is glued into case)
  - Provides physical shock resistance, reduces the potential for static build-up and arc potential due to the low friction coefficient of the foam

Technical Data:
- Surface Resistivity 1010-1011 (ASTM D 257 / ESD S11.11)
- Static Decay <2.0 Seconds (MIL-PRF-81705D)

Features:
- Double-wall Construction - Maximum Physical Protection
- Locking Tabs (select items)
- Secure Positive, Integral Double Latches
- ESD Protection
- Reusable & Stackable
- Permanently Anti-Static

Die-cut foam quoted separately

Conductive: Conductive Storage Cabinets

High-density storage, maximum organization and cost savings efficiency can be achieved with our generous selection of reinforced durable plastic frame conductive storage cabinets. Each drawer cabinet features conductive drawers and drawer stops to prevent accidental spills.

*All cabinets include (10) 35/52 dividers, all other dividers are optional
