imall

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

DPIULC6

ESD protection for internal DisplayPort[™]

Features

- Compliant with DisplayPort 1.1a
- IEC 61000-4-2 level 4 compliant
- Ultralarge bandwidth (> 5 GHz)
- Low capacitance variation: 0.05 pF
- 100 Ω ± 10% differential impedance (100%) compatible with 100 Ω differential layout)
- 500 µm pitch for easy layout

Complies with the following standards

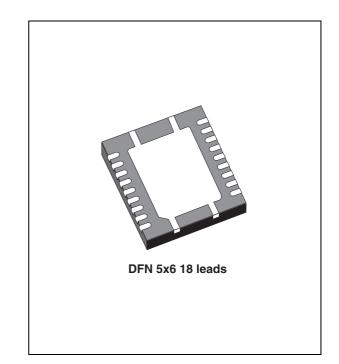

- IEC 61000-4-2 level 4
- 15 kV (air discharge)
 - 8 kV (contact discharge)
- MIL STD 883G-Method 3015-7: class 3B
 - 8 kV HBM (Human Body Model)
- VESA DisplayPort Standard Version 1.1a

Description

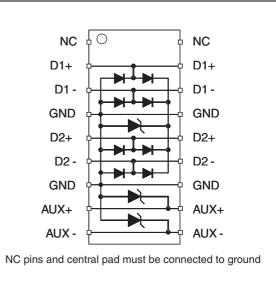

The DPIULC6-6DJL device provides fully integrated ESD protection ensuring full system robustness as required by the DisplayPort specification. Differentiated protection dedicated to each link ensures full compliance with the DisplayPort specification.

The bandwidth of each circuit ensures full transparency to the DisplayPort signals.

The DPIULC6-6DJL is packaged in DFN 5x6.

Schematic diagram (top view) Figure 1.
