PCB Machining Kit

TOL-14814

Do you want to get started in PCB machining or have you been curious where to start? The PCB Machining Kit from Carbide 3D includes all of the drills, cutters, and copper material you need to start creating your own PCBs on your home CNC machine right away!

Inside each PCB Machining Kit you will find one standard PCB drill set, one variety PCB drill set, #501 and #502 PCB engravers, and 10 units of four different copper sheets.

If you are wondering how best to utilize this kit, make sure to check out the free to use web app, Carbide Copper. Carbide Copper is CAM software to let you mill PCBs with your CNC machine and is the fastest way to make same-day circuit boards in your own office or shop.
