

Chipsmall Limited consists of a professional team with an average of over 10 year of expertise in the distribution of electronic components. Based in Hongkong, we have already established firm and mutual-benefit business relationships with customers from, Europe, America and south Asia, supplying obsolete and hard-to-find components to meet their specific needs.

With the principle of "Quality Parts, Customers Priority, Honest Operation, and Considerate Service", our business mainly focus on the distribution of electronic components. Line cards we deal with include Microchip, ALPS, ROHM, Xilinx, Pulse, ON, Everlight and Freescale. Main products comprise IC, Modules, Potentiometer, IC Socket, Relay, Connector. Our parts cover such applications as commercial, industrial, and automotives areas.

We are looking forward to setting up business relationship with you and hope to provide you with the best service and solution. Let us make a better world for our industry!

pushPIN™ Heat Sink

ATS Part#: ATS-FPS037058023-38-C1-R0

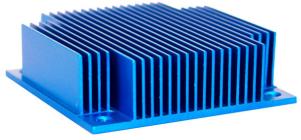

Description: push PIN™ HS,FINE-PITCH,STRAIGHT,HOLE PATTERN:4-CORNER,BLUE ANODIZED,NO TIM

Heat Sink Type: pushPIN™ Heat Sink

Heat Sink Attachment: pushPIN™ - SOLD SEPARATELY

Features & Benefits

- » Quick Attachment Push pins feature a flexible barb at the end designed to engage with pre-drilled holes in a PCB.
- » Compression Springs add the necessary force to hold the assembly together for secure attachment. Select from over 21 different springs to achieve precise force required.
- » Push Pin Material available in brass or plastic in 10 sizes ranging from 9-20mm in length. Stainless steel hardware kit available for more secure attachment. Visit www.qats.com for available options.
- » Heat Sinks Designed for All Airflow Conditions. Select from over 112 fine pitch HS designed for high velocity air flows and 98 course pitch HS designed for low velocity air flow conditions.
- » Pre-assembled with phase-changing material for increased thermal performance. Double-sided thermal tape and no TIM options available to meet application-specific requirements.
- » Lightweight, aluminum HS extruded from AL6063 provide optimal heat transfer with a blue anodized finish.
- » All components are RoHS and REACH compliant.
- » Industry standard hole pattern. Recommended through hole size is 3.175mm

For Illustration Purposes ONLY.

NOTES

- Dimension A is the length of the heat sink in the direction of the flow.
- 2) Dimension B is the width of the heat sink perpendicular to the flow direction.
- 3) Dimension C is the heat sinkheight from the bottom of the base to the top of the fin field.
- 4) Dimension E is the distance between holes perpendicular to the direction of the flow. of flow.
- 5) Dimension F is the distance between holesin the direction of flow.
- 6) Thermal performance data are provided for reference only. Actual performance may vary by application.
- 7) ATS reserves the right tp update or change its products without notice to improve the design or performance.
- 8) ATS certifies that this heat sink assemby is RoHS-6 and REACH compliant.
- 9) Contact ATS to learn about custom options available.
